Monday's assembly proved to be a huge success with our students as Evangelist Ken Freeman spoke about his life growing up in an abusive family. He held their attention by using audience response to varying cues randomly mixed in with points he was making about choices in life. The students were captivated with his enthusiasm and energy as he spoke. I feel as though he connected with many of our students who may be going through some of the same problems that he went through at their age.

Thank you for giving us the opportunity to hear this amazing speaker. I believe that this assembly allowed those students who may be in similar situations to know that they are not alone. Ken stressed to the students that only they can make the right choices for themselves. Hopefully, the program has made an impact on students who are suffering in silence and will encourage them to seek help.

Sincerely,

Charlie Parkerson  
Principal
