To Whom It May Concern:

Ken Freeman spoke to my students at Blanchard High School today and it was one of the best messages I have heard during my thirty-three years of Public Education. I have 485 students and when Ken was talking you could hear a pin drop. He grabbed the students attention with humor then delivered his message that hit home with the problems that all students are faced with in today's world. I highly recommend Ken to anyone that has a chance to listen to his story.

Greg Jackson
