RE: Ken Freeman Motivational Speech

To Whom It May Concern:

We had the opportunity to host Ken Freeman for the first time at our school today. As an administrator, it has proven difficult over the years to find a speaker that has a clear, relevant, age appropriate and motivating message. I can honestly say that Ken is the total package. His message changed the lives of students at Hallsville Junior High School and will undoubtedly impact the decisions they make in the future. He motivated and moved a student body of over 715 seventh and eighth graders with his personal story of perseverance, hope and choices. He encouraged our students to consider carefully the decisions they make since they are "one choice away from changing their lives." If presented with the opportunity, do not pass up the chance to have Ken speak at your school. You will absolutely not regret your decision.

If you have any further questions about Ken Freeman or his ability to impact students, please feel free to contact me at the number or email listed below.
