To Whom It May Concern:

Mr. Ken Freeman was a guest speaker at our school this year. He did an excellent job of keeping the attention of all students at all times. He uses humor and audience participation to promote the message of making good choices and how those choices affect individual lives.

The students in our school have continued to talk about Mr. Freeman and how much they enjoyed his presentation. There were several students that attended his rally the same night at an off-campus location due to the impact he made on them at school. We would recommend Mr. Freeman as a speaker at any school because he has the gift of influencing young people.

Thank you.

Mike Cain, Principal
Huntsville Middle School
