To Whom It May Concern:

Ken Freeman spoke to our school today, and our students and staff members were truly touched by his message. Approximately 900 students participated in the assembly, and the reception was very positive and well-received. Ken has a gift which enabled him to form a relationship with all students (from very diverse backgrounds) in a matter of minutes. From that point on, he used humor, along with his personal story to drive home the point of choices and the power that they have in our lives.

As an educator for seventeen years, I have seen and heard many student assemblies. Few of them have made an impact on students like Ken Freeman did. I certainly hope that we are able to have Mr. Freeman speak to our students again.

Sincerely,

Gary Preston
Principal
